

ADVANCED NEUROIMAGING IN PKU

Dr Michel Tchan has teamed up with Professor Stuart Grieve for a cutting edge research project in PKU.

Do you want an advanced brain scan to help us learn more about how PKU is affecting you?

We can see the effects of PKU in more detail than ever before possible.

The scan only takes about 45 minutes to complete.

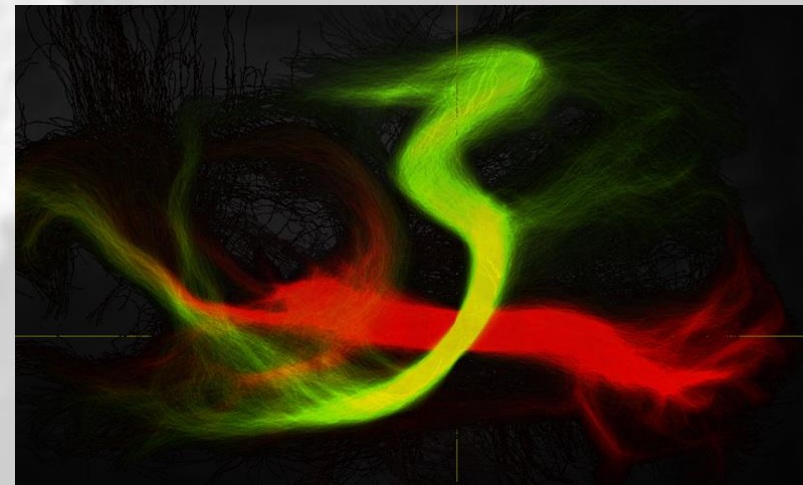

If you are interested in finding out more and participating in this ground-breaking study, contact:
